## The Hero Worship Holistic Facial

---

There's no Hero product left behind in this powerhouse protocol. With our treasure trove of best-in-class beauty, each facial is expertly customized to meet and treat your skin based on where it's at today. While no two Hero Worship facials are alike, you can expect your all-encompassing experience to include a double-cleanse, an enzyme, natural acid or manual exfoliation, a multi-mask treatment with steam and massage and a hydration ritual to replenish and retain essential moisture. The all-star lineup of Hero products—rarely used in professional treatments—are incorporated into every step of your facial to ensure you'll discover your skin's new normal.

## NEW! The Face Lift

---

Feel and look lighter and lifted with this holistic treatment focused on increasing circulation, toning and firming with a combination of non-invasive modalities; lymphatic drainage, cryo-and thermal-therapy, advanced gua sha, microcurrent and LED light therapies. Customized—Beauty Heroes style—each treatment is bespoke with products and modalities selected specifically for your skin to cleanse, tone, massage and firm. Enjoy the results for 3-14-days depending on your skin and at-home care. Not to replace your regular, holistic facial, this shorter, targeted service (only 45 minutes) is perfect before an important day, event or photo shoot—and compliments your routine facials to achieve healthier skin tone.

## The Teen Spirit Facial

---

A Hero Worship tailored to address the unique concerns of teenage skin, this facial focuses on gentle cleansing and exfoliation, extractions, if necessary, and a detoxifying treatment mask that will support skin coming into balance. Throughout the treatment, our skin therapist will educate you on healthy skin habits so you can develop good skincare and makeup routines at home. Parents are welcome in the room to accompany their teen if desired and to consult with our skincare professionals before, during and after the treatment.

## Gua Sha Facial Sculpting

---

Based on the Traditional Chinese Medicine practice of gua sha stone massage that has been used for centuries to address a wide variety of health concerns, gua sha has the added benefit of leaving the skin and fascia below appearing lifted, more toned and sculpted.
